# UZBEKISTAN PPPs INSTITUTIONAL (LEGAL) FRAMEWORK

## PPP LEGAL-REGULATORY FRAMEWORK

01

PPP Law  
# 537, May 10, 2019.

The law defines the main notions and principles of public-private partnership (“PPP”), establishes procedures for the development and implementation of PPP projects, provides for financial support mechanisms, as well as contains rights, obligations, powers of and requirements for the principal participants of PPP projects.

02

Regulations of  
Implementation of PPP  
projects  
#720, October 30, 2024

Cabinet of Ministries approved the Regulations of Implementation of PPP projects. It includes procedures for initiating and developing PPP projects, selecting private partners, and establishing initial assessment protocols. Additionally, it covers the preparation of PPP project concepts, maintaining implementation reports, and keeping a comprehensive register of PPP projects.

03

Regulations on the  
procedure for managing  
the state’s fiscal  
obligations  
# 558, October 23, 2023

Cabinet of Ministries approved the Regulations on the procedure for managing the state's fiscal obligations that may arise from PPP projects. It includes the management and regulation of direct and contingent state obligations in PPP projects, the procedure for state partners to submit information on these obligations to the authorized body, and the creation of a unified inter-agency electronic database. This database will facilitate the analysis of state obligations and the monitoring of potential future risks associated with PPP projects.

04
